About This Game

A game about gangsterz in space getting money. Explore worlds while collecting alien bounties in an arcade style, 2d rougelike action platformer.

Features

- The game was built in this cool new thing called a "Fantasy Console". In particular, I built in PICO-8. This means this game got them retro vibes, and I had to write some crazy code to fit in that 32k code size limit. And to my knowledge, this is going to be the first PICO-8 game on the market, so that's preety cool!
- Battle Through 3 different worlds, as you get the most money, and beat your fastest time. And if you are crafty, encounter a few secrets along the way.
- Bring a friend with Two player co-op on desktop devices.
- Rougelike elements will have you pulling your hair and cheering for joy on the gentle but steep difficulty curve.
- Unlock 2 additional characters in the shop, that will change the way you play.
- Music by Aviscerall.
